

Unlock it. Tint it. Done.

World first: the Unlocker is the ultimate game changer for every window tinter.

THE **Unlocker**™

Remove a car door window in 15 seconds? Yes, really!

The Unlocker is the first tool in the world that makes it possible to effortlessly remove car windows from their clamping system — in just a few seconds.

The Unlocker, invented by JeanPaul Peters from the Netherlands, is a unique, brand-new global innovation that solves this problem in one go.

So no more struggling with stuck panels, frustrating constructions, and broken clips.

Fast, safe, and damage-free.

The risk of tinting roll-down windows in the car.

Removing and reinstalling roll-down windows has (until now) always been difficult, error-prone, and extremely time-consuming. Many tinters therefore leave the windows in place, but this increases the risk of dust and dirt getting under the film. This happens because debris accumulates between the window guides and rubber seals — areas you can't access without disassembly. The result is poor adhesion of the film to the glass, which can come loose over time.

Perfect installation is only possible with the windows removed.

With the Unlocker, you avoid all of the above problems because the windows come out in the blink of an eye! No damage, no stress, no effort. The window can now be cleaned much more thoroughly and tinted much more easily. Perfect right to the edge, everywhere and in every corner.

How does it work?

- 1 The Unlocker releases the window clamp with one smooth motion.
- 2 You slide the window out and do your tint job.
- 3 Reinstalling? Window down, click... done!

Wide model: for VW, SEAT, Skoda, Audi

Narrow model: for BMW, Mercedes, Ford and more

Beveled teeth open the clamps effortlessly.

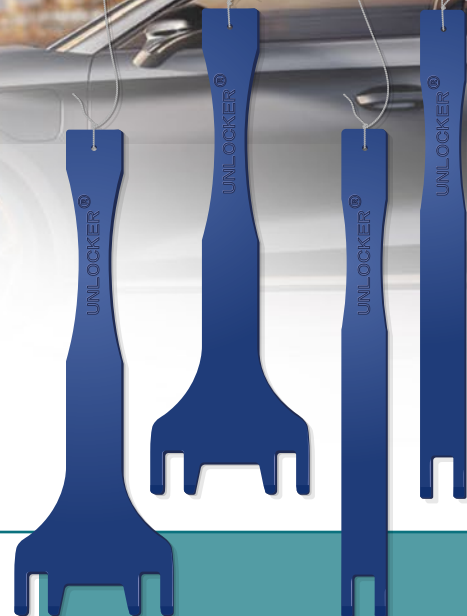

Smart cord prevents the tool from falling into the door.

The Unlocker saves you time, effort, and money.

No more hassle with breaking clips, panels, or risk of damage.

Just unlock, clean, and tint. Professional work can be that simple.

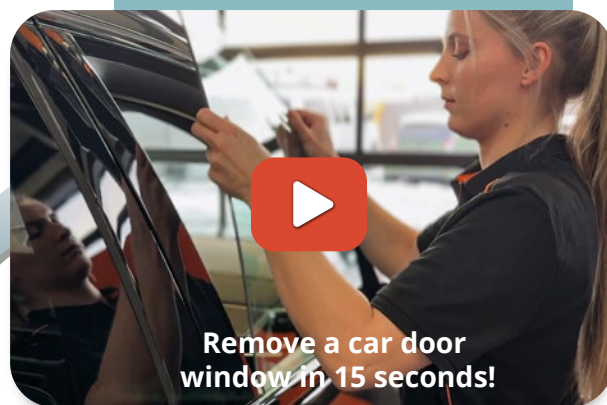

Successfully used on:

- Mercedes • Volvo • Ford • Audi
- BMW • Skoda • Volkswagen • SEAT
- Land Rover ... and many more models with clamp-mounted windows.

The benefits at a glance:

- Super-fast working time — tint up to 5× faster
- No damage, no risks, no frustrations
- Professional results without compromise
- Suitable for numerous car makes and models

Remove a car door window in 15 seconds!
